Career Objective

Aspiring software engineer with a strong passion for learning and building real-world applications. Seeking an opportunity to apply my academic background and practical skills in a professional environment, contribute to impactful projects, and continuously develop my expertise in modern software development.

SKILLS

Programming Languages & Tools: C++, C# (.Net), Entity Framework, LINQ, Asp.net Core, Git and GitHub.
Core Concepts: Data Structures, Algorithms, OOP, Design pattern.
Communication: Arabic, English

TECHNICAL EXPERIENCE

Mentor

March 2023 — Present

ICPC PSU Community

- Volunteered as a mentor in the university's programming community.
- Assisted new members in mastering core algorithmic topics, including Prefix Sum, Binary Search, Two Pointers, Greedy Algorithms, Dynamic Programming, and Graph Theory.

EDUCATION

Bachelor's Degree in Information Systems and Technology

2022 — 2026

Faculty of Management Technology and Information Systems- Port Said University.

ACTIVITIES

I served as a mentor for students interested in participating in programming competitions such as the ICPC. My role involved teaching them the fundamentals of C++ and various problem-solving techniques. I conducted online meetings and provided guidance through video sessions.

EXPERIENCE AND ACHIEVEMENTS

- | | | |
|---|----------------------|------|
| Ranked 11th out of 250+ teams in ECPC 2023 Qualifications | link | 2023 |
| Participated in ACPC Kickoff 2025 (Online Individual Contest) | link | 2025 |
| Participated in Meta Hacker Cup 2024 | link | 2024 |

OTHER

Solved over 2,500 problems across various online judges, including [Codeforces](#), [AtCoder](#), [CodeChef](#), [LeetCode](#), and more.

This extensive problem-solving experience has strengthened my understanding of data structures, algorithms, and a wide range of programming concepts.
