Software Engineer

GitHub
LinkedIn

I have a passion for knowing and learning more in software engineering, finding a place where I can apply my knowledge and experience, working on real projects, and gaining more knowledge and experience as a student.

SKILLS

Tools and Languages	C++, C#, Java, Js
Conceptual knowledge	OOP, Data Structures and Algorithms
Communication	English, Arabic

TECHNICAL EXPERIENCE

Problem Setter **June 2021 — Present**

ICPC Minya Community

- Setting and Testing many problems in Juniors and newcomers trainings.

EDUCATION

Bachelor of information technology

Faculty of science - Minya University. **2020 — 2024**

ACTIVITIES

Head of training in ICPC Minya University **2021 — Present**

I helped in Minya university for Juniors *and newcomers training in problem Solving using cpp as a mentor and problem setter.*

Instructor and Mentor for students who want to participate in programming competitions like ICPC by teaching them fun-damentals of C++ and some problem solving techniques .
This is a sample video from online meeting link **2021 — Present**

EXPERINCE AND ACHIEVEMENTS

Ranked 1th in Ecpc 2021 Qualifications among 16 teams from Minya University and 8th among +160 team from Upper-Egypt's Universities link **2021**
Participated in ECPC (Egyptian collegiate programming contest) link **2021**
Participated in Google Kick start 2021 and ranked 32th in Egypt and 2781th worldwide link **2021**
Participated in Google Kick start 2022 and ranked 4th in Egypt and 1238th worldwide link **2022**
Participated in Google Code jam 2022 link **2022**

OTHER

I Solved +2500 problems in different online judges like (Codeforces – Atcoder – codechef - leetcode. . . .) The problems give me a strong knowledge in different topics especially (Data structures and Algorithms) .
